

Project Initialization and Planning Phase

Date	30 September 2026
Team ID	SWTID-2026-1854
Project Name	Import Data using Transform Maps (Spreadsheet)
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A ServiceNow user managing employee data.	Import and manage employee data	Manual data entry takes more time and may cause errors	Employee data is available in spreadsheet format	It is difficult to maintain accurate and updated employee records.
