

Code-Layout, Readability and Reusability

Date	30 September 2026
Team ID	SWTID-2026-1854
Project Name	Import Data using Transform Maps (Spreadsheet)
Maximum Marks	5 Marks

Code-Layout, Readability and Reusability:

This document evaluates the quality of the codebase in terms of its structure, readability, and reusability. Well-organized code with proper naming conventions, comments, and modular design ensures that the project is maintainable and can be extended or reused in future development.

Code Layout Checklist:

S.No	Code Quality Parameter	Description	Followed (Yes / No / Partial)	Remarks
1	Consistent Indentation	Uniform formatting is used in scripts and configurations.	Yes	Consistent formatting is maintained.
2	Proper File Structure	Project files and configurations are logically organized.	Yes	ServiceNow components are organized properly.
3	Meaningful Variable Names	Variables reflect their purpose clearly.	Yes	Meaningful names are used in scripts where applicable.
4	Function / Method Names	Functions are descriptively named.	Yes	Descriptive names are used where scripting is required.
5	Code Comments	Comments explain important script logic.	Yes	Comments are added where necessary.
6	Modular Design	Reusable scripts or configurations are used where applicable.	Yes	ServiceNow reusable components are used where applicable.
7	No Redundant Code	Duplicate or unnecessary scripts are avoided.	Yes	Unnecessary code and configurations are avoided.
8	Error Handling	Errors are handled appropriately during data import and processing.	Yes	Import validation and error handling are used through ServiceNow Import Sets and Transform Maps.

Reusable Components / Modules:

S.No	Component / Module Name	Language / Technology	Where Reused	Reusability Level (High / Medium / Low)
1	Import Set	ServiceNow	Used for importing employee spreadsheet data	High

2	Transform Map	ServiceNow	Used to map spreadsheet fields to Employee Test table fields	High
3	Employee Test Table	ServiceNow	Used for storing and managing employee records	High
4	Employee Reports	ServiceNow	Reused for viewing employee data by department, location and employee details	Medium
5	Employee Analytics Dashboard	ServiceNow	Reused to display employee reports and analytics in one place	Medium

Overall Code Quality Assessment:

Aspect	Rating (1-5)	Comments
Code Layout & Structure	4	ServiceNow components such as Import Sets, Transform Maps, tables, reports and dashboards are organized properly.
Readability	4	Configuration names and field names are clear and easy to understand.
Reusability	4	Import Sets, Transform Maps, reports and dashboard components can be reused for similar employee data management tasks.
Documentation / Comments	4	Project components and their purpose are documented clearly.
Overall Score	4/5	The project is well-structured, readable and reusable for employee data management.
