

## Project Executable Files

|                      |                                                |
|----------------------|------------------------------------------------|
| <b>Date</b>          | 30 September 2026                              |
| <b>Team ID</b>       | SWTID-2026-1854                                |
| <b>Project Name</b>  | Import Data using Transform Maps (Spreadsheet) |
| <b>Maximum Marks</b> | 3 Marks                                        |

### Project Executable Files

This section requires submission of all executable and deployable files for your project. Ensure all files are properly organized, named, and uploaded to the specified submission platform. The evaluator must be able to run or deploy your solution using the provided files and instructions.

#### Step 1: Submission Checklist

| S.No | Item to Submit                                                  | Submitted (Yes / No / NA) |
|------|-----------------------------------------------------------------|---------------------------|
| 1    | Complete source code (all files and folders)                    | Yes                       |
| 2    | README / Setup Guide (instructions to run the project)          | Yes                       |
| 3    | requirements.txt / package.json / dependency file               | NA                        |
| 4    | Database schema / seed files (if applicable)                    | NA                        |
| 5    | Environment configuration file (.env.example or similar)        | NA                        |
| 6    | Deployed application URL (if hosted)                            | NA                        |
| 7    | APK / Executable binary (if applicable for mobile/desktop apps) | NA                        |
| 8    | Dockerfile / Containerization config (if applicable)            | NA                        |
| 9    | Test files and test results                                     | Yes                       |

|    |                                         |    |
|----|-----------------------------------------|----|
| 10 | Demo video or walkthrough (if required) | NA |
|----|-----------------------------------------|----|

## Step 2: File / Folder Structure

Provide an overview of your project's file and folder structure below:

Project Repository

- |
- | — 1. Brainstorming & Ideation
  - | — Brainstorming & Idea Prioritization.pdf
  - | — Define Problem Statements.pdf
  - | — Empathy Map.pdf
- |
- | — 2. Requirement Analysis
  - | — Customer Journey Map.pdf
  - | — Data Flow Diagram.pdf
  - | — Solution Requirements.pdf
  - | — Technology Stack.pdf
- |
- | — 3. Project Design Phase
  - | — Problem-Solution Fit.pdf
  - | — Proposed Solution.pdf
  - | — Solution Architecture.pdf
- |
- | — 4. Project Planning Phase
  - | — [உங்க Planning section PDF files]
- |
- | — 5. Project Development Phase
  - | — Code-Layout, Readability and Reusability.pdf
  - | — Coding & Solution.pdf
  - | — No. of Functional Features Included in the Solution.pdf
- |
- | — 6. Project Testing
  - | — Performance Testing.pdf
- |
- | — 7. Project Documentation
  - | — Project Executable Files.pdf
  - | — Sample Project Documentation.pdf
- |
- | — 8. Project Demonstration
  - | — Communication.pdf

- | |— Demonstration of Proposed Features.pdf
- | |— Project Demo Planning.pdf
- | |— Scalability & Future Plan.pdf
- | |— Team Involvement in Demonstration.pdf
- | |— 9.README

### Step 3: Deployment / Access Details

| Field                              | Details                                                                                                                                                                     |
|------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Hosted / Deployed URL</b>       | Not Applicable – The project is developed and accessed through a ServiceNow instance.                                                                                       |
| <b>Login Credentials (Demo)</b>    | Not Applicable – No separate demo login credentials are provided. Access is through the ServiceNow instance.                                                                |
| <b>Platform / Hosting Provider</b> | <b>ServiceNow Cloud Platform</b>                                                                                                                                            |
| <b>Repository Link</b>             | <a href="https://github.com/Anandhavalli12/Import-Data-using-Transform-Maps-Spreadsheet">https://github.com/Anandhavalli12/Import-Data-using-Transform-Maps-Spreadsheet</a> |
| <b>Demo Video Link</b>             |                                                                                                                                                                             |

### Step 4: Run Instructions

### Step 5: Known Issues / Limitations

| S.No | Known Issue / Limitation                                                                                   | Workaround / Status                                                                   |
|------|------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------|
| 1    | Dedicated performance testing was not performed using tools such as JMeter or k6.                          | Functional testing was completed successfully. Performance metrics were not measured. |
| 2    | The project does not have a separate public deployment URL because it runs within the ServiceNow instance. | The project can be accessed through the ServiceNow instance by authorized users.      |
| 3    | Reports and dashboard depend on the employee data available in the Employee Test table.                    | Reports and dashboard are updated automatically when                                  |

|  |  |                                        |
|--|--|----------------------------------------|
|  |  | employee records are added or updated. |
|--|--|----------------------------------------|
